How long you have worked at Epic Strides 3 YEARS

Career Aspirations:

I first learned about ABA after graduating from college. I came across a position as a therapist for children on the autism spectrum. I knew immediately that this field is one I wanted to pursue. Seeing the difference that we as therapist make in the lives of our clients everyday is nothing short of rewarding. Each time I see a client progress in an area makes me extremely proud of the work I do on a daily basis.

I enjoy spending free time with family and friends. Being born and raised in San Diego, I grew up going to the beach often and it still remains on the list of one of my favorite places to go. I love doing a lot of house-decor shopping. Although it's been almost a year since the purchase of our home, I still find myself shopping for the house and continuously changing things around. I enjoy trying all different types of food from all around and hope that one day I become a great enough cook to where I can cook all different types of food at home!
